The Statewide Assessments form has been updated and the ELPAC report is now available. The search has been updated with the new ELPAC fields as well.

The ELPAC report is located under the Reports section of the upper navigation bar.

Click the **Generate Report** button to create the ELPAC report.

The ELPAC report pulls in the following students:

- Eligible status
- EL Status = Yes
- Grades Kindergarten – 12th
- Initial ELPAC or Summative Computer-based must be selected

A new compliance validation has been added to ensure that if a student is selected for Alternate Assessments, that they must take the Alternate for all subjects they are assessed on.

- Compliance Warning: If a student is selected for Alternate Assessments, they must take the Alternate Assessment on all subjects they are assessed on; including ELA, Math, Science and ELPAC (if required).

The ELPAC updates to the IEP at a Glance form will be available shortly.
