

Affected by Wildfire?

We're here to help.

If a wildfire has affected you or anyone in your family, let your Employee Assistance Program provide professional counseling, resources, referrals, and assistance for these and other topics:

- Wildfire preparedness and evacuation updates
- Relocation and housing
- State and national relief organizations
- Local and community agencies
- Coping with crisis

Call 800 999-7222 or log on www.anthemep.com for free, confidential information anytime, any day.

Program name: **SISC**

In the event of power outages and lack of telephone service in disaster-affected areas, availability, vacancy checks, associated costs and licensing/certification information cannot be confirmed for providers in those areas. In addition, for phone lines that are working, there may be a very high call volume and work-life specialists may not be able to connect. This level of service may change based on availability of phone service and power.
