Education, Health & Protective Services

Education, Health & Protective Services Career Preparation

Why prepare for a career in Education & Health Services?

If you enjoy working with children and have good communications skills and an interest in helping others learn—or if you're intrigued by the study of science and health, enjoy caring for others, and have good interpersonal skills—then a career in Education, Health care or Protective Services may be right for you.

Education, Health and Protective Services are growing industries that provide a wide range of job opportunities. Schools and hospitals are major employers in Sonoma County and they offer many different career options for entry-level employees and those with advanced training. You'll want to take courses in this field if you're interested in becoming a teacher, teaching assistant, or childcare worker—or if you are considering a career as a doctor, nurse, medical technician, or hospital aide or if you are interested in becoming a paramedic or emergency medical technician. Students interested in sports medicine, fitness training, and physical therapy will also find classes that prepare them for future employment.

<i>Advanced</i>	Health Science 3, Health Care Coop* or Child Development CC

*Cooperative Vocational Education, or Co-op is a work-based learning opportunity. Students have jobs in the field and meet once a week at school for related instruction. Each participating student has a training plan with specific educational goals. The instructor and job site supervisors jointly oversee students' progress.
