

# HOW DO I GET VACCINATED?

## Steps for getting immunized against COVID-19 as a school or child care employee

SCOE is working closely with local schools to coordinate this vaccine rollout. Your school, district, or employer will let you know when it's your turn!

### What you need to know:

#### PREPARATION

- Please wear a face mask and maintain social distance.
- Be prepared for a possible wait in line should there be a backup.
- Be ready to answer a few registration questions onsite.
- There will be an observation time of 15-30 minutes at the site after being vaccinated to ensure that you have no side effects.

#### LOCATION

Your school/district/employer will communicate with you directly about where to go when it is your turn to be vaccinated. SCOE's vaccination clinic is at Rancho Cotate High School in Rohnert Park.

#### BE SURE TO BRING

- Photo ID (driver's license or other form of photo identification).
- Proof of employment at your school or district (examples include: a printed or digital pay stub or employee ID badge).
