The following highlights some Unaudited Actual forms and reporting issues:

GASB 68 ~ Accounting and Financial Reporting for Pensions

State STRS On-Behalf Contributions (Resource 7690) ~ Governmental LEAs must record in their governmental funds the State's contribution to CalSTRS on behalf of LEA employees. As part of your fiscal year end close a journal entry was required to recognize the state's on-behalf pension contribution to CalSTRS is to debit pension contribution expenditures by fund, goal, and function in proportion to the LEA's own pension contributions to CalSTRS by fund, goal, and function, with a corresponding credit to state revenue using Resource 7690. As the debit to expenditures equal the credits to revenue, the effect to fund balance is zero. See Step 19a in the 2019-20 Year End Close Manual for detailed instructions on making this entry. This entry affects both the district's fund statements and government-wide financials statements. Please discuss entry with your auditors.

STRS and PERS Net Pension Liability ~ If the present value of all employees participating in the CalSTRS or CalPERS pension plan (the plan's total pension liability) exceeds the resources accumulated by the pension plan to pay benefits (producing a net pension liability), LEAs must now report in their government-wide financial statements their proportionate share of the plan's net pension liability. At present, both CalSTRS and CalPERS have a net pension liability. Please discuss this entry with your auditors.

GASB 74 and GASB 75 ~ Postemployment Benefits Plans other than Pensions (OPEB)

GASB 74 was effective fiscal year 2016–17. It requires that the notes to financial statements of all defined benefit OPEB plans that are administered through trusts that meet the specified criteria and discloses information about OPEB plan investments, including the OPEB plan's investment policies, concentrations of investments with individual organizations, and the annual money weighted rate of return on OPEB plan investments and much more. This applies to single-employer and cost-sharing OPEB plans that are administered through trusts. Please discuss this with your auditor.

GASB 75 purpose: to align postemployment benefits (OPEB) accounting to be consistent with pension in order to compare the different liabilities. This additional disclosure drives more useful information and high level of transparency. GASB 75 will mirror GASB 68. Net or Total OPEB Liability will be recorded on the financial statements. A strictly prescribed actuarial methodology and discounting will be used to produce the OPEB liability and more frequent actuarial valuations will be required. It is recommended that you contact you auditor to verify that your LEA has the correct information available in your current actuarial study to properly record OBEB benefits in your 2019-20 Unaudited Actuals documents and for your auditor to include in your 2019-20 Audit. A new or updated actuarial study may be required.

GASB 84, 87 & 95 ~ Fiduciary Activities

The Governmental Accounting and Standards Board (GASB) has formally issued GASB 95, officially postponing the effective dates of GASB 84 and GASB 87 by one year.

- GASB 84, regarding Fiduciary Activities (Student Body reporting) will not need to be implemented in 2019-20. It has been recommended by many auditors that LEAs report 2019-20 student activities in the same manner as prior years. The new SACS Fund 08 Student Activity Special Review Fund will remain open, but does not need to be used. Implementation will be required for the 2020-21 fiscal year. Please contact your auditors directly for confirmation about their view and reporting requirements.
- GASB 87, regarding lease reporting activities, implementation has been delayed until the 2021-22 fiscal year.

SPECIAL EDUCATION ~ end of year reporting

1. Subsequent Year Tracking (SYT) worksheet

LEAs should complete the SYT prior to their preparation of the SEMA and SEMB. Deborah Malone –Larson will be e-mailing the SYT worksheet directly to LEAs with additional information.

2. SACS2020ALL ~ Unaudited Actuals ~ Special Education MOE (SEMOE) – Found under ‘Reports’

The SACS2020ALL software includes two reports:

- Report SEMA – Special Education MOE- Actual VS. Actual – The “LEA MOE Calc” tab addresses the federal Subsequent Year Rule. To ensure the LEA is comparing 2019-20 expenditures to the appropriate comparison year, the LEA is required to complete the SYT worksheet with their LEA Maintenance of Effort Calculation (LMC-A) worksheet of the SEMA.
- Report SEMB – Special Education MOE- Budget VS. Actual – The “LEA MOE Calc” tab addresses the federal Subsequent Year Rule. To ensure the LEA is comparing 2020-21 budgeted expenditures to the appropriate comparison year, the LEA is required to complete the SYT worksheet with their LEA Maintenance of Effort Calculation (LMC-B) worksheet of the SEMB.

NOTE: It is advisable to complete the SEMA and SEMB reports before submitting the SACS unaudited actual data to the CDE. Although these reports are not required reports for Unaudited Actual electronic submission, they must be submitted separately, in hard copy. **SEMA and SEMB Reports are due to SELPA no later than October 15, 2020.**

3. Excess Cost Calculation and the SYT worksheet

The Excess Cost Calculation and information will be e-mailed to LEAs by Debra Malone-Larson in August. The 2019-20 Excess Cost Calculation and Number of Full-Time Special Education Student Equivalents Calculation is **due by September 15, 2020.**

CHARTER SCHOOL REPORTING ~ Education Code Section 42100 requires each charter school prepare an annual statement of all receipts and expenditures for the preceding fiscal year which are due to the authorizing agency on or before September 15 each year. Charter schools may choose to submit their financial data either in the SACS format or in the Alternative Form prescribed in the regulations. See **attached checklist** for required forms relating to charter schools. Please work with your sponsoring district in meeting all requirements for this financial reporting.

Reporting WITH the Authorizing Agency

Charter school SACS financial data can be reported with the data from their authorizing agency in the authorizing agency's General Fund[County School Service Fund] (Fund 01), Charter Schools Special Revenue Fund (Fund 09), or Charter Schools Enterprise Fund (Fund 62 which allows accrual accounting for not-for-profit charter schools).

Reporting SEPARATELY from the Authorizing Agency

SACS format: Charter schools should report their year-end data using one of the following as their main operating fund: General Fund (Fund 01) or Charter Schools Enterprise Fund (Fund 62) which allows accrual accounting for not-for-profit charter schools.

Alternative format: For information about the Alternative Form please see "Charter School Alternative Form 2019-20" at: <http://www.cde.ca.gov/fg/sf/fr/csalternative.asp>

LOTTERY REPORT ~ SACS software automatically extracts data to this form. Please note that if an LEA contributes funds from Resource 1100 (unrestricted) to another resource, amounts that are expended must be manually added in the second column of the Lottery Report.

“OFFICIAL” SUBMISSION ~ The Unaudited Actual export must be done as an **“Official” submission**. Please call your SCOE Fiscal Advisor if you cannot do an **“Official” export**. The use of

“Other” export must have prior approval from the State and/or County Office and a cover letter must accompany the “Other” export explaining why an “Official” export could not be done.

SCOELIST ~ Attached is the SCOELIST which should be used to confirm that the reports included in the software have been prepared to submit to SCOE. The reports listed in this letter must be submitted to SCOE (electronic version or in hard copy), along with an e-file that includes all SACS forms.
