Re-issued the highlighted checks in the APY system using the 01-0000-0- - 9515 code and it will clear the account.

REPEAT this process until you have found all your stale-dated checks. If you started out the year with a beginning balance, that means that you did not clear checks stale-dated in the prior year. You will need to repeat this entire process by choosing the prior year when running your fiscal03 or by entering the prior year in the account look up search box.

Follow district policy for writing off checks that have stale dated more than 1 time.
