

***SMAA (School-Based Medi-Cal Administrative Activities)
Program Update***

District Business Users Group (DBUG)

June 24, 2021

Invoices

- We are currently collecting signatures for the FY 19/20 Q3 invoices

Payments

- We received the check for the 19/20 Q1 reimbursement from DHCS this week. Therefore, receivables will need to be set up for these funds. The A/R will be included in SCOE's year end packets, and will be in Packet #3.

Important Reminder for LEA BOP (or known as Medi-Cal Billing or LEA Billing):

The LEA is responsible for all information reported by billing vendors on billing claims, the CRCS, or any other documents that are submitted on behalf of the LEA. It is the LEA's responsibility to be knowledgeable about LEA Medi-Cal Billing Option Program requirements. **The LEA has the contract with the state (DHCS).**

Update: Funding for Student Health Care Services and supporting LEAs:

- Main goals:
 - Increased focus on student health and mental health services supported through LEAs.
 - Support LEAs with LEA BOP claims
 - Establishing working relationships between LEAs, MCOs, and county mental health services

The Governor's Budget proposal along with current Legislation both have the funding for these activities. The budget that the legislature passed on June 14 includes many of these programs and funding. There is optimism that these Medi-cal related programs providing support to LEAs will be in the final budget.
