2021-22 School Year

CALPADS Redesign Update

May 25, 2022

This notice is to let local educational agencies know that the opening of the **End-of-Year (EOY) submission window has been moved to June 2, 2022**. This will allow additional time to address critical issues impacting file submission and EOY functionality. Prior to opening EOY, a Flash communication will be sent providing guidance on the recommended order for EOY submission, as well as information on what functionality is ready and what functionality may still need to be addressed.

We appreciate your continued patience as we work to get the EOY submission window open and resolve the critical issues that may impact EOY file submissions.

Thank you,
CALPADS Team

Participation and Testing Windows

- Will the 95 Percent Testing Requirement Be Waived?
 - No. Federal requirements state that LEAs test not less than 95 percent of students and no waivers of these requirements are available for 2021–22 testing. LEAs are expected to work toward meeting this target.
- Will the Summative ELPAC Testing Window Be Extended?
 - The testing windows for the Summative ELPAC and Alternate ELPAC operational field test are both scheduled to close on May 31, 2022. This window cannot be extended because Summative ELPAC scoring must be completed and preparations to roll over ELPAC information must be finalized in time for the opening of the Initial ELPAC and Alternate Initial ELPAC testing windows in July.
- Can a CAASPP Test Administration Window Be Extended?
 - While there is no extension for the CAASPP administration, reach out to the LEA's [Success Agent](#)  to adjust the end date for the LEA. The end date needs to be within the LEA's instructional calendar. Send the request as soon as possible so the changes can happen within the current update schedule.

Special Ed Files in CALPADS

The SPED file redesign **will not be changed until the 2023-2024** school year. Too many issues!
