Local Control and Accountability Plan 2022-23

Including:

• 2022-23 LCFF Budget Overview for Parents
• Supplement to the Annual Update to the 2021-22 LCAP
• 2021-22 Local Performance Indicator Self-Reflection

SunRidge Charter School
(District 21- Fund 09)
Local Educational Agency (LEA) Name: SunRidge Charter School
CDS Code: 4970961-4930350
School Year: 2022-23
LEA contact information:
Kalen Wood
Director
kwood@twinhillsusd.org
707-824-2844

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year
This chart shows the total general purpose revenue SunRidge Charter School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for SunRidge Charter School is $3,308,591, of which $2,473,061 is Local Control Funding Formula (LCFF), $254,981 is other state funds, $470,074 is local funds, and $110,475 is federal funds. Of the $2,473,061 in LCFF Funds, $159,801 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much SunRidge Charter School plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: SunRidge Charter School plans to spend $3,312,755 for the 2022-23 school year. Of that amount, $1,782,188 is tied to actions/services in the LCAP and $1,530,567 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

The LCAP includes specific funding for specific actions. The balance of the budget over the LCAP expenses detailed here include costs for administrative and classified staff that support all students as well as supplies and services. Please see the adopted budget for further details.

### Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year

In 2022-23, SunRidge Charter School is projecting it will receive $159,801 based on the enrollment of foster youth, English learner, and low-income students. SunRidge Charter School must describe how it intends to increase or improve services for high needs students in the LCAP. SunRidge Charter School plans to spend $159,801 towards meeting this requirement, as described in the LCAP.
This chart compares what SunRidge Charter School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what SunRidge Charter School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, SunRidge Charter School's LCAP budgeted $113,565 for planned actions to increase or improve services for high needs students. SunRidge Charter School actually spent $113,565 for actions to increase or improve services for high needs students in 2021-22.
California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2021–22 Local Control and Accountability Plan (LCAP).

We have partnered with Social Advocates for Youth (SAY). The purpose of this partnership is to address the social and emotional needs of our youth impacted by COVID. This will be done through group activities, one on one counseling and school wide assemblies when feasible under County Health Guidelines.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

n/a

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

Twin Hills district has a Budget Advisory Committee. The committee is in the process of reviewing the four different budgets for the elementary and our three charters.
Federal Funds will be addressed as well. The committee is composed of certificated staff, classified staff, Board Members, and community members.

The District is also in the midst of conducting the Youth Truth Survey, which seeks input from parents and students. These results will be included in the LCAP.

The needs identified in our committee and plans include academic learning loss, social-emotional supports, and serving the nutritional needs of our students. The plans will allow the district to use the funds it received through the Budget Act of 2021 and are not included in LCAP. These funds will go towards supporting our Covid coordinator, purchasing PPE equipment and providing Social and Emotional support to our students and summer programs.

The District is very much aware that hiring staff to support some of the actions is difficult in the jobs market and may have to be pushed out to the 2022-23 School Year.

The SunRidge Charter Council meets monthly and is composed of faculty, staff, and community members. The Charter Council regularly reviews the school’s budget, LCAP and other plans, survey data, as well as hiring and other school-wide initiatives.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

Twin Hills will be using the ESSER III funds primarily in three fundamental ways as adopted by the board on October 14, 2021.

Social and Emotional Well Being

Covid Coordinator

MTSS support

Challenges
- The district needs to conserve some of the funds to address and maintain staffing and program needs to the level experienced prior to the pandemic as we anticipated a decline in enrollment "Enrollment Decline Cliff" happens as we anticipate in 2022-23 or even beyond.
- Address ways to respond to post COVID-19 achievement gaps, create a diversity, equality, and inclusion framework while ensuring students' social and emotional well-being.
A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.

The Twin Hills District is reviewing the ESSER III Expenditure Plan and Safe Return to In-Person and Continuity of Services Plan and aligning the expenditure of those funds to the LCAP and the goals therein. The LCAP goals include:

LCAP Goal 1: To provide every student with the opportunity to attain increasing levels of achievement that prepares them for success with a district curriculum that is rigorous, aligned with Common Core State Standards, and meets 21st century learning goals. Provide strong, inclusive instructional leadership that uses data in decision-making.

For SunRidge Goal 1 is stated to reflect the use of Waldorf Education as a methodology in concert with state standards:

LCAP Goal 1 To provide every student with the opportunity to attain increasing levels of achievement that prepare them for success with a curriculum that is aligned with the Common Core State Standards and the core principles of Public Waldorf Education.

LCAP Goal 2: (Both district and school) To create and sustain a safe, supportive, and respectful environment for students, teachers, staff, and parents.

Each new funding source must support and further the goals set forth in the LCAP. In many cases, the expenditure is included across multiple grants. The community has placed a strong emphasis on in-person instruction in a small class environment served by the regular classroom teacher using an experiential, project-based, relationship-oriented approach to learning. The community and school stakeholders have also expressed a strong desire to implement the robust specialist program (Practical and Fine Arts, Music, Spanish, Gardening, Physical Education, and a middle school math and science teacher).

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA’s 2022–23 LCAP.

Instructions
Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA’s educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

**Prompt 1:** “A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).”

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

**Prompt 2:** “A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.”

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California *Education Code* Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

**Prompt 3:** “A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.”

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support
recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (https://www.cde.ca.gov/fg/cr/relieffunds.asp) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (https://www.cde.ca.gov/fg/cr/) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

**Prompt 4:** “A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.”

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

**Prompt 5:** “A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.”

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

Plan Summary [2022-23]
General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

SunRidge is a K-8 Public Waldorf Charter School serving 220 students in beautiful rural Sebastopol, Sonoma County. We are located on a 10+ acre site that provides beautiful classrooms, a full sports field, a multipurpose room, a library, and gardens. 78.5% of our students are Caucasian, 10% are Hispanic, 9.6% are of multi-ethnicity, 1.1% are Asian-American, 0.4% are African-American or Filipino. Our faculty and staff are dedicated and collaborative in blending Common Core standards with Waldorf’s developmental pedagogy. Parents participate in bringing the school’s mission and vision to vibrant life through volunteering in the classroom, and through councils, committees, and special events, thus creating a unique school culture that values inclusion, care, and respect. SunRidge students are well prepared academically for the high schools they matriculate to and the academic program is enhanced by a specialty program that includes Spanish, movement, handwork, art, instrumental music, and gardening. Social-emotional learning is emphasized through the multi-year relationship with main lesson teachers and a team of teachers that interact with students throughout the grades. Special Education and a multi-tiered system of support provide a network of instructional strategies for helping all students access learning.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

In June of 2021, Star Renaissance assessment data indicates that 74% of students in grades 3-8 are proficient in Reading. More specifically - 62% of 3-5th graders and 86% of 6-8th graders scored as proficient. This supports our understanding that while Waldorf methods start reading instruction slightly later than traditional schools, our middle school students demonstrate a high level of proficiency. Star Renaissance assessment data indicates that 30% of all students in grades 3-8 are proficient in Math. More specifically, 20% of 3-5th graders and 41% of 6-8th graders scored as proficient.

According to the CA dashboard data from 2019, our scores in ELA were 27.2 points above the standard. Math results were 10.9 points below the state standard. Both these scores were a drop from the previous year's results. This decrease in student scores is attributed to 4 grades (grades 3-6) making a transition from a paper and pencil test to a digital test. In addition, in that year (2018-19) the middle school students did not have a consistent math teacher. SunRidge students did not take the CAASPP tests in 2020 or 2021. They are taking the CAASPP tests in spring 2022 so we will have results in August.

The 21-22 attendance rate is 91%.

We successfully navigated distance learning with the development of a parent portal and a quick pivot to digital instruction through the use of Zoom and Google Classroom. We have continued to use Google Classroom for providing information and assignments in grades 6-8. The middle school has also implemented Aeries for communicating grades and assignments to students and families. In addition, students requiring additional support are offered Chromebooks and IXL Reading and Math online instructional support.
SunRidge reopened in-person this year and rehired specialty instructors and assistants to provide a robust and rigorous program including instructional aides; middle school math teacher; Spanish, gardening, and woodwork instructors; an intervention teacher; and searched high and low for a counselor, finally contracting with Social Advocates for Youth (SAY) a local organization for student counseling services for about 6 weeks in the spring. We hope this will continue next year!
Faculty continued to use and evaluate positively the math and social science textbooks, as well as other curricula, purchased and implemented last year.

Truly, Sunridge faculty and staff have done an amazing job of sustaining school culture despite all the disruptions, short and absent staffing, and everchanging regulations due to COVID, that required everyone to double or triple their efforts to reach all students (at many different levels due to COVID) and support their development physically, academically, socially, and emotionally!

**Reflections: Identified Need**
A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Star Renaissance assessments were used in the fall and winter to guide instruction and identify students who needed support. A continued need to provide intervention services in addition to the special education teacher position ie evident as the gap (caused by distance learning) for some students was too large to close in a year and this year, many students were also absent with COVID. Professional Development is an area the faculty would like more funding and opportunities for in the 2022-23 school year. The Youth Truth surveys indicate students are seeking more engagement and academic rigor.
Data shows students perform better in ELA than Math. Additional math support was provided in the middle school two days a week.

**LCAP Highlights**
A brief overview of the LCAP, including any key features that should be emphasized.

The key features of this year’s LCAP are based on staff, parent and student surveys, and meetings with Charter Charter Council and faculty.

The first key feature is providing more special education and instructional support for learning recovery through increasing personnel for special education and multi-tiered supports through small group and individual tutoring and extended day learning opportunities. In addition, learning recovery is addressed through social-emotional learning (SEL) inherent in Waldorf pedagogy which includes multi-year relationships with a team of teachers, instructional aide support in all classes, and specialty classes that incorporate SEL through movement, Spanish, art, music, gardening, projects, and presentations.
CAASPP Assessments: Data for two groups is available from the 2019 test administration - white and socioeconomically disadvantaged. ELA scores for 2019 for students in grades 3-8 were 27.2 points above the state standard. However, these scores were a decline of 33.1 points from the previous year. (Socio-economically disadvantaged students declined by 14.9 points; white students by 33.4 points.)

Math scores for 2019 were 10.9 points below standard and a decline of 33.4 points from the previous year. (Socio-economically disadvantaged students declined by 24 points; white students by 30.6 points.)

This decline is attributed to four grades transitioning from a paper and pencil test to a digital test. Math instruction will be supported through an intervention teacher, extended day learning opportunities, and instructional aide time providing more small groups and individual support. Instruction and practice will also be provided in keyboarding and digital test-taking for grades 3-8. Data for the 2022 CAASPP scores will be available this August.

A third feature is to continue to improve tardies and increase attendance through a consistent response to tardies and unexcused absences. SR worked with the SARB board to help one student return to school after several months of being truant.

We continue to provide an excellent learning environment through continuing previous goals and good choice programs such as Cyber Civics for 6-8th grade students, Suicide Prevention Education (SOS) for the 7th and 8th grades and implementing an onsite counselor position. Continuing the intervention teacher position will allow students who do not qualify for special education to continue to receive support services and achieve grade-level standards.

Teachers are provided time to collaborate with grade-level teams on a regular basis. Professional development and teacher learning and leadership are emphasized. Specific professional development needs are in the process of being identified including behavioral training for classified as well as certificated staff, to meet the needs of students with sensory and behavioral dysregulation.

We continue to provide a safe, well-maintained site that incorporates features such as student gardens and permaculture, including rain catchment and composting.

**Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

**Schools Identified**

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

NA
## Support for Identified Schools
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

NA

## Monitoring and Evaluating Effectiveness
A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

NA
Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

SunRidge provided opportunities for teachers, parents, students, and community members to provide feedback when gathering data and information. During the 2021-2022 school year, parents, students, and staff were surveyed utilizing the platform YouthTruth. Director Wood met with the Charter Council (faculty, classified staff, parents, and community members) to review this data and discussed goals and actions with the Charter Council and at staff meetings regularly. Bi-monthly reports to the Board of Trustees by the director include actions taken to support and improve student learning, parent involvement, social-emotional learning activities, and extracurricular opportunities. Renaissance Learning assessments, a site-specific reading inventory for younger grades, SST meetings, and semester progress reports were used to monitor and communicate regarding student progress.

A summary of the feedback provided by specific educational partners.

SunRidge started the year with the intention to rebuild the community. We were successful in rebuilding the in-person school program, but due to COVID’s continued and considerable influence we were not able to welcome parents back onto campus to volunteer and fundraise, nor were most classes able to attend field trips other than walking ones in the local area. While the Charter Council, diversity committee, and Education Foundation met regularly, the Parent Council remained dormant except for teacher appreciation activities.

Twin Hills district formed a Budget Advisory Committee. The committee reviewed the four different budgets for the elementary and charter schools. The committee is composed of certificated staff, classified staff, Board Members, and community members and helped educate more community members regarding the financial situation of the school and the district.

Youth Truth Survey Results provided the following data:

Students rated highest: Belonging and Peer Collaboration; School Culture; Project-Based Learning

Parents rated highest: Relationships; School Culture; Communication and Feedback; School Safety

Of those parents surveyed:
95% indicate teachers and students care about each other
92% indicate families and teachers care about each other
92% feel comfortable approaching teachers about their child’s progress
89% feel teachers treat families with respect
88% believe in the school’s mission.
88% feel the school is a safe place to learn
86% indicate the school creates a friendly environment
86% receive information about what their child should learn and be able to do
A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The LCAP was influenced by stakeholder input in these ways: Continue to fund a math/science position for the middle school; continue to fund intervention teacher position; continue to fund and provide instructional aides; continue to provide in-person counseling through SAY; identify and provide professional development needs and opportunities for both classified and certificated staff; and add more administrative support.
Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>To provide every student, including unduplicated students and students with disabilities, with the opportunity to attain increasing levels of achievement that prepare them for success with curriculum that is aligned with the Common Core State Standards and the core principles of Public Waldorf Education.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

This goal was developed based upon local assessment data, as well as stakeholder input. A broad goal was selected to support the overall achievement of all students who can improve in all areas, with specific actions to support UPC and special education students. The 2019 LCFF Evaluation Rubrics/Dashboard place all students in the green range for English Language Arts, the yellow range for Mathematics, Chronic Absenteeism in the yellow range and the suspension rate in the blue range.

All teachers are highly qualified and actions include increased reading and math support and continued technology support and instruction. Teachers will benefit from professional development for student engagement strategies and more frequent data points to inform lesson planning.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

SunRidge was not able to hire a counselor until the spring of 2022. Instructional aide positions were also difficult to hire for due to COVID and other factors.
An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

See above.

An explanation of how effective the specific actions were in making progress toward the goal.

See above. Now that we have hired a counselor we hope to increase the position to .4FTE as the student need is evident.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

COVID continued to restrict and redefine what was possible this year, however we were able to implement the goals despite not having a special education teacher for most of the year, thanks to district personnel supporting the school as well as site personnel taking up the tasks of tutoring, meetings, and record-keeping. The biggest success was resuming in-person learning!

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
## Goals and Actions

### Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>To create and sustain a safe, supportive, and respectful environment for all students, including unduplicated students and students with disabilities, teachers, staff, and parents.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Learning takes place best when the school community fosters a safe, supportive, and respectful environment for all members. This broad goal was selected using stakeholder survey data, suspension and discipline data, and campus safety factors. The campus is clean and safe and the goal supports continued campus maintenance programs. Students, parents, and teachers report a safe and friendly environment.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All actions were provided.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No material differences.
An explanation of how effective the specific actions were in making progress toward the goal.

Due to COVID adjustments had to be made to cover staffing shortages. Instructional assistants continued to support teachers in all classrooms and provided supervision during recesses and breaks for snack and lunch. The new site coordinator worked diligently to address safety concerns.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

No major changes anticipated.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2022-23]

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

### Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

SunRidge School has less than 30% Unduplicated students. No funds designated to increased or improved services are contributing school-wide.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

These funds will be spent on the students attending SunRidge’s K-8 program. A part-time school counselor position was added and will support unduplicated students by providing academic, social-emotional, and behavioral support. Research indicates that counseling services support academic achievement in elementary school (Barna, J. Bratt, P. Professional School Counseling, 2007) We weren’t able to find qualified applicants for the instructional aide positions last year and will redouble our efforts to find and retain highly qualified candidates. Continuing a 1.0 intervention teacher will allow for targeted support so that unduplicated students, as well as other students, can have more access to small group and individual supports for learning and completing assignments. The intervention teacher will also support teachers by analyzing student achievement data, and assisting teacher teams in the implementation of common core standards and differentiation.
These services are increasing for unduplicated students by providing additional instructional support for students not proficient in Math and ELA.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning**: The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners**: The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance**: The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  
  o Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

  o Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

  o Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

**Plan Summary**

**Purpose**
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

**Requirements and Instructions**

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year’s LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**
Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE’s website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

**Local Control and Accountability Plan:**

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

**Goals and Actions**

**Purpose**
Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

**Requirements and Instructions**
LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal**: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

- **Broad Goal**: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- **Maintenance of Progress Goal**: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- Consistently low-performing student group(s) goal requirement: An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated...
Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description**: Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

**Low-performing school(s) criteria**: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Low-performing school(s) goal requirement**: A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description**: Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

**Measuring and Reporting Results**: For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.
Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. **(Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).**

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC Section 306*, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis:**

Enter the LCAP Year.
Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

**Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

**Requirements and Instructions**

*Projected LCFF Supplemental and/or Concentration Grants:* Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.
**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:**

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.
Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

**Unduplicated Percentage > 55 percent:** For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55 percent:** For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:
School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40 percent or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

**A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.**

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:
An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

**Action Tables**

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
• Table 2: Contributing Actions Table (for the coming LCAP Year)

• Table 3: Annual Update Table (for the current LCAP Year)

• Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

• Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

• **LCAP Year:** Identify the applicable LCAP Year.

• **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

  See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

• **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

• **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

• **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

• **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —
Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action’s number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?**: Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.

If “Yes” is entered into the Contributing column, then complete the following columns:

- **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

- **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
• **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note**: For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

• **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

• **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

• **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

• **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

• **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

  For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

**Contributing Actions Table**
As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

**Annual Update Table**

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

**Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

**LCFF Carryover Table**

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
10. Total Percentage to Increase or Improve Services for the Current School Year: This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables
To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table
- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
  - This percentage is the total of the Planned Percentage of Improved Services column

  Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table
Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
• 7. Total Estimated Actual Expenditures for Contributing Actions
  o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

• Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

• 5. Total Planned Percentage of Improved Services (%)
  o This amount is the total of the Planned Percentage of Improved Services column

• 8. Total Estimated Actual Percentage of Improved Services (%)
  o This amount is the total of the Estimated Actual Percentage of Improved Services column

• Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

**LCFF Carryover Table**

• 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
  o This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

• 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
  o This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

• 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
  o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
• 13. LCFF Carryover — Percentage (12 divided by 9)
  
  o This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022
Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Performance Standards

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.
School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

Coordination of Services for Expelled Students-County Office of Education (COE) Only (LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.

Coordination of Services for Foster Youth-COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to stakeholders and the public through the Dashboard.
Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to stakeholders and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to stakeholders and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

** Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1) **

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Support for Teachers and Administrators

5. Rate the LEA’s success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest) -
1. Exploration and Research Phase
2. Beginning Development
3. Initial Implementation
4. Full Implementation
5. Full Implementation and Sustainability

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.
As a Public Waldorf School, SunRidge employs a variety of materials to integrate common core standards with the developmental pedagogy informing the curriculum.

ELA materials for K-3 are in the third year of adoption (Roadmap to Literacy).

After distance learning, faculty observed a wider range of ability and began to research literature and other materials that would support student learning in small groups.

Literature sets in grades 5-8 were organized and additional sets purchased. Outdated, racist and stereotypical literature was culled. A parent committee reviewed class book sets and annotated what pages and concepts were erroneous, providing additional material for discussion and reframing.

History and Social Science materials adopted in 2020-21 continue to be used in grades 4-8 successfully: 6-8th grade uses History Alive. Social studies materials from California Education and Environment Initiative are used in 4th-8th grade. This has been a great resource!

Math programs: Oak Meadow adopted in 2020-21 for grades 4-5th and Illuminations is used as core material in 6-8th.

The school implemented Renaissance Learning assessments three times a year this year in addition to resuming the CAASPP after a two year hiatus due to the pandemic.

Through MTSS the school focused on data analysis and alignment of instruction accordingly. This made an impact on math and reading progress for students supported through intervention. One successful intervention was second grade reading groups during the spring semester. Math support in 6-8th grades was offered twice a week.

Parent and Family Engagement (LCFF Priority 3)

This self-reflection tool is organized into three sections. Each section includes promising practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-making

LEAs use this self-reflection tool to reflect on its progress, successes, needs and areas of growth in family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified.

The results of the process should be used to inform the LCAP and the development process, to assess prior year goals, actions and services as well as to plan or modify future goals, actions, and services in the LCAP.

For each statement in the table below -

1. Identify the diverse stakeholders that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage stakeholders in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including...
families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of data, identify the number which best indicates the LEA's current stage of implementation for each practice using the following rating scale (lowest to highest):

   1 - Exploration and Research Phase
   2 - Beginning Development
   3 - Initial Implementation
   4 - Full Implementation
   5 - Full Implementation and Sustainability

4. Write a brief response to the prompts following each of the three sections.

5. Use the information from the self-reflection process to inform the LCAP and the LCAP development process, as well as the development of other school and district plans.

Building Relationships

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation

Dashboard Narrative Box (Limited to 3,000 characters)
Briefly describe the LEA’s current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.
Parent Involvement: Increased opportunities for parent participation are planned at the school and classroom levels, but were limited this year by the pandemic restrictions.

Parent Education was ongoing at the class level with each teacher holding 3-5 parent evenings for their class community.

In addition, school-wide parent education was created by departments: Kindergarten teachers held regular combined meetings; 1-5 grade teachers created a slide show and presented on the math curriculum; and the 6-8th grade teachers presented on the successful habits for middle school students and strengthening the home school partnership.

Twice monthly school bulletins highlighted class curriculum and program events as well as school-wide topics and community connections.

Letters from the director also provided school-wide updates.

SR will continue to provide opportunities for stakeholder input to refine strategies and to sustain or increase current enrollment through the promotion of a positive school climate. We will continue marketing efforts and strategies for increasing, retaining, and diversifying our community.

### Building Partnerships for Student Outcomes

Rating Scale (lowest to highest) -
1. Exploration and Research Phase
2. Beginning Development
3. Initial Implementation
4. Full Implementation
5. Full Implementation and Sustainability

</tbody>
</table>

### Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA’s current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.
The middle school continued to use Google Classroom for communicating with students and parents regarding assignments. In addition, Aeries was implemented as a grading system in 6-8th, making it easier for teachers to grade while also helping students and families to check on assignment completion. When students were absent, work was sent home or available online. This included Home Hospital arrangements.

SunRidge holds conferences in the fall; 97% or more of families attend; these conferences ensure that students are off to a good start and parents have the information they need to support their student’s academic and social progress. Parent conferences are scheduled as needed after that. Student Success Team meetings are also essential in identifying students needing extra support or further assessment.

SR has worked closely with the district, SELPA, and legal staff to ensure that students with special needs receive the best supports and educational programs possible.

SR has worked closely with the SARB, CPS, Police Departments in Sebastopol and Santa Rosa and the DA’s office to ensure that truant students return to school.

### Seeking Input for Decision Making

**Rating Scale (lowest to highest) -**

1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

<td></td>
<td></td>
<td></td>
<td></td>
<td>5</td>
</tr>
<tr>
<td>2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>5</td>
</tr>
<tr>
<td>3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>5</td>
</tr>
<tr>
<td>4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>5</td>
</tr>
</tbody>
</table>
Dashboard Narrative Box (Limited to 3,000 characters)

Briefly describe the LEA’s current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

Teachers, principals and office staff regularly announce to the school community upcoming Charter Council and Foundation meetings in addition to school wide parent education and class parent meetings.

All families were surveyed using Youth Truth. SR has a high percentage of parent response (one of the top 10 schools two years running) to provide input on policies, program design and opportunities to share their opinion. This includes those from underrepresented groups.

Positive Images provided school-wide parent education, professional development and presentations for the 7th and 8th grade in response to requests for more information about the LGBTQI topics relevant to middle school.

In addition, the Director worked closely with the parent-led diversity group and researched professional development, parent education and assembly possibilities for next year. The Charter Council and Director interviewed three different groups and agreed to engage with Holistic Resistance. This was important because all stakeholders recognized that educational conversations that surfaced related to historical themes (such as the Civil War and Civil Rights) in the middle school this year needed more context, preparation, and resources to be both inclusive and effective.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. **DATA:** Reflect on the key learnings from the survey results and share what the LEA learned.

2. **MEANING:** What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?

3. **USE:** What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?
Youth Truth Survey Results provided the following data regarding School Climate:

Students rated highest: Belonging and Peer Collaboration; School Culture; Project-Based Learning.

Parents rated highest: Relationships; School Culture; Communication and Feedback; School Safety

Of those parents surveyed: 95% indicate teachers and students care about each other

92% indicate families and teachers care about each other

92% feel comfortable approaching teachers about their child's progress

89% feel teachers treat families with respect 88% believe in the school’s mission.

88% feel the school is a safe place to learn

86% indicate the school creates a friendly environment

86% receive information about what their child should learn and be able to do

Staff rated highest: Relationships and Engagement

Suspension Rate: 0.20%

The suspension rate remains significantly below the County average at 3.4%.

Zero expulsions

---

**Access to a Broad Course of Study (LCFF Priority 7)**

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from
Priority 7 - Course access - Students have access to a broad course of study (English, math, social science, physical education, science, mathematics, visual and performing arts, career technical education, as well as access to classes program such as gardening, spanish, handwork, woodwork, keyboarding and cyber civics) as evidenced by the school-wide class schedule and student progress reports.

100% of student have access to the courses appropriate to each grade level.

Support programs include: Intervention and special education services K-8 and math support in 6-8th grades. Behavioral supports include counseling, restorative processes, and class buddy system.

All students, including unduplicated students and students with exceptional needs are enrolled in a broad course of study.

Goal: continue to maintain 100% of a broad course of study for all students, including unduplicated students (EL, foster, socio-economic) and students with exceptional needs.

API, A-G, UC, CSU Career Tech course completion, AP testing, and EAP are not applicable as we are a K-8 district.

The main actions to ensure a broad course of study for all students are professional development, increased counseling resources to support SEL, continuing to fund the intervention teacher position, and fundraising to support the program’s special features.
