ICE (In Case of Emergency):

In case of emergency (ICE) is a program that enables first responders, such as paramedics, firefighters, and police officers, to identify and call your emergency contacts (such as your parent or other family member, careprovider, or friend) to obtain important medical information.

To participate you simply need to enter emergency contacts in your cellular phone address book under the name "ICE". You can also list multiple emergency contacts as "ICE1", "ICE2", etc. If you were then injured first responders would look in the cellular phone address book under “ICE” and call that number.
