

<b>Writing Apps</b>			
<b>Story Starters/Writing Prompts</b>			
	<b>App Title</b>	<b>App Description</b>	<b>Price</b>
	<b>60 Story Starters</b> <b>(Super Duper Publications)</b>	This app includes 60 images, each of which features three different story starters. Story starters are spoken aloud.	\$5.99
	<b>Spark!</b> <b>(Spark Your Imagination Ventures, Inc.)</b>	Includes 52 story starters. These story starters are text only, no images or voice. Content is appropriate and appealing for all ages. App can be customized with up to five custom-designed story starters.	\$0.99
	<b>Silly Story Starters- Creative Writing for Kids</b>	Generates millions of silly story starters for kids. Students can type their stories into the app. Stories can be emailed. Text only, no images or voice.	\$1.99
	<b>Story Spark</b> <b>(Thinkamingo)</b>	Generates 25+ scenerios with unlimited word combinations. Apple VoiceOver support available. Recommended ages: 10 and up.	\$2.99
	<b>Writing Prompts for Kids</b> <b>(Teacher Created Resources)</b>	This writing prompt generator randomly generates a situation, a character, a setting, and/or an object. Also includes a "Better Words" section that provides alternatives for simple or overused words. Includes "Hard to Spell Words" section that provides the proper spelling of over 100 commonly misspelled words. Text only. No images or voice.	\$1.99

	<b>Writer's Hat</b>	<p>Writer's Hat is an idea generator to inspire creative writing. Writer's Hat allows students to have four basic elements of their story selected randomly for them: Who, What, Where, and/or When. Alternately, students can use the app to randomly generate a noun, verb, adjective, and/or adverb to help them generate ideas for use in creative writing. Text only; no images or voice.</p>	\$0.99
	<b>A+ Writing Prompts</b>	<p>Includes 5 types of prompt generators: Scenes (generates place, character, object, and date/time); Words (generates 5 words to be used in story); News (provides a headline and a link to the news article); Texts (story starters); and Sketches (generates genre and type of writing). Text only; no images or voice.</p>	\$4.99
	<b>Lists for Writers- ideas for creative writing (Thinkamingo)</b>	<p>Includes dozens of lists: names, conflicts, animals, weather, settings, locations, verbs, colors, plots, character traits, obsessions, rhyming words, etc. Includes a Notepad feature where you can collect any interesting list items, edit them, and email them. Text only; no images or voice. Designed for older students and adults.</p>	\$2.99
		<b>Sentence Construction</b>	
	<b>SentenceBuilder for iPad</b>	<p>SentenceBuilder is designed to help elementary students learn to build grammatically correct sentences. Includes 100 pictures to build sentences around. Each picture is accompanied by a "multi-wheel picker," with each wheel in the "picker" representing a part of the sentence and containing a list of from 1-5 words to choose among. Three levels of difficulty.</p> <p><b>SentenceBuilderTeen</b> is available for \$5.99. Includes 100 teenager-themed pictures to build sentences around and 3 levels of difficulty.</p>	\$5.99

	<b>Rainbow Sentences</b>	<p>Rainbow Sentences is designed to help students improve their ability to construct grammatically correct sentences using color-coded visual cues. Includes 168 images to create sentences from. Drag and drop words to create sentences. Words are spoken as they are dragged into the sentence. Option to have students record sentences in their own voices.</p>	\$9.99
	<b>Sentence Maker</b>	<p>Students make sentences corresponding to images by dragging words into correct sequence. Option to choose 2 -3 word phrases or 4-5 word sentences. Options for various levels of scaffolding support (e.g. sentence hints, word hints, visual hints). Fully customizable: add, delete, and/or edit images, text, and sounds.</p>	Free
	<b>I Can Write 2</b>	<p>Place items in a scene and then choose the correct words to write a sentence about the scene. Includes four scenes and works on prepositions. Designed for young students who are just beginning to read and write.</p> <p><b>I Can Write 1:</b> Dress an animal and then choose the correct words to write a sentence about what the animal is wearing. (Free)</p> <p><b>I Can Write 3:</b> Drag activities onto a calendar and then choose words to write a sentence about the activity. (Free)</p>	Free
	<b>Clicker Sentences</b> <b>(Crick Software)</b>	<p>Build sentences using whole words and phrases. Many options for varying levels of visual and auditory supports for sentence construction. Options to change font, font size, text color, and background color. Picture support via camera roll. Print or email student work directly from the app. Clicker Sentences is designed as a tool for teachers to create sentence-building activities for their students, but also includes sample activities and direct access to LearningGrids, an online resource with free, downloadable, ready-made, sentence-building activities.</p>	\$20.99

		<b>Story Composition</b>	
	<b>Storybuilder for iPad</b>	Storybuilder is designed to help students learn how to create a narrative. App includes 50 distinct story lines from which to create a complete narrative. There are 3 levels of play: In Level 1, each story line is accompanied by a series of 4 images and corresponding questions; questions at this level are directly related to something in the image. In Level 2, seven questions are asked and the student will need to make inferences about what happened before the events of the picture and what will happen immediately after the events of the picture. In Level 3, the student can make up any story they wish. In all levels, students record their answers to each of the questions. Recorded answers are then “stitched together” to create a complete narrative, which the student can play back and save.	\$5.99
	<b>Story Wheel</b>	1-4 players create and record a story. Players develop stories in response to random images obtained by spinning the story wheel. Each player contributes to the story by recording a few sentences corresponding to the image s/he received. Themes include Pirates, Princesses, Aliens, and Storyteller. Completed stories can be played back and emailed. A guide for “How to Tell a Story” is included.	\$2.99
	<b>Super Duper StoryMaker</b>	Create story books with over 800 items (grouped by category), photos from your camera roll, audio, drawings, handwriting, and text. Print out or email your stories.	\$4.99 Free, lite version available.
	<b>Story Creator</b>	Create storybooks containing photos, videos, text, and audio.	Free

	<p><b>Story Patch</b></p>	<p>Includes a variety of tools for creating your own story, including a library of over 800 illustrations, sorted by category.</p> <p>Story Patch includes a set of story themes that younger children can use to create stories with help. After student selects a theme and answers a set of (written) questions, Story Patch builds a story based on the student's responses and inserts all of the text, so the student simply has to illustrate each page of the story.</p> <p>Stories can be saved, edited, and emailed.</p>	<p>\$2.99</p>
	<p><b>Pictello</b></p>	<p>Pictello is a simple way to create talking photo albums and talking books. Each page in a Pictello Story can contain a photograph, up to five lines of text, and a recorded sound or text-to-speech. Word-by-word highlighting available for text to speech. Save and share stories through email or Dropbox.</p>	<p>\$18.99</p>
		<p><b>Writing Templates</b></p>	
	<p><b>Kids Book Report</b></p>	<p>Provides a template for writing a very simple book report. Report can be saved and emailed.</p>	<p>\$0.99</p>
	<p><b>Scribble Press</b></p>	<p>Scribble Press is a book creation platform that allows students to create their own books. Includes 50 story templates, drawing tools, stickers, stamps, and option to import photos from your photo library. Additional templates available through in-app purchases. Download your creations to your iBooks library.</p> <p><b>Scribble My Story</b> is the junior version of Scribble Press, targeted for children 3-7. Includes 6 templates with audio supports and one blank book.</p>	<p>Free</p>

		<b>Graphic Organizers/Idea Mapping</b>	
	<b>Inspiration Maps</b>	From the makers of Inspiration software. Combines a visual diagramming environment with an outlining environment. Create diagrams, maps, and graphic organizers in diagramming mode; then tap to transform visual work into a written outline. Easily switch back and forth between diagram and outline. Take photos from within the app or import photos from your device's camera roll. Over 30 templates included. Outlines can be emailed as text or shared with other apps on your iPad, such as: Pages, Notes, AppWriter US, Voice Dream, etc.	\$9.99  Free, lite version available.
	<b>Tools4Students (Mobile Learning Services)</b>	Includes 25 graphic organizers. Type responses into each section of the chosen organizer. Save within the app for editing or revisions. Email as an image (PNG) or a PDF file.  Also available from Mobile Learning Services: <b>CompareNContrast:</b> Presents 35 sets of photos connected to a graphic organizer where students traits that are the same and different. (\$0.99)	\$0.99
		<b>Word Processing</b>	
	<b>Pages</b>	Full-featured word processing app designed by Apple. Documents are compatible with Microsoft Word.	\$9.99
	<b>Clicker Docs</b>	Create documents with the support of word prediction, spell check, audio-supports, and customized word banks. In-built lowercase keyboard. Audio supports allow user to listen to words prior to selecting them, as well as listening to text written and inserted into the document. Word prediction options include: choice of database size, number of predicted words, use of sounds-like prediction, and prediction of next word.
