21st Century Teaching & Learning Summer Institute

The 21st Century Teaching & Learning Summer Institute is a week-long professional development opportunity designed for local educators to work collaboratively to transform the way young people are prepared for the rapidly changing demands of the 21st century.

The theme for the 2015 Institute is Making to Learn: Connecting the Maker Movement to CCSS, NGSS, and 21st Century Skills. The Institute will be an experiential, hands-on professional development opportunity for a select group of innovative educators from local schools and districts.

Following a thought-provoking morning of speakers at ieSonoma 2015, participants will spend the next four days engaged in hands-on “Maker” activities, learning the fundamentals of making and how it aligns with Common Core State Standards, Next Generation Science Standards, and 21st century skills. After the week of summer training, participants will come back together for a follow-up field trip on Saturday, October 3.

Institute Schedule
Mon, June 8 – 8:00am to 1:00pm
Tues, June 9 – 8:30am to 4:00pm
Wed, June 10 – 8:30am to 4:00pm
