

Equity at the Core

The [Equity at the Core](#) Conference is designed to provide educators and community leaders in Sonoma County and throughout the region with information and resources needed to generate the conversation about equity in our schools. The conference content will focus on best practices that could be implemented to create equitable school environments for all learners to eliminate gaps in achievement and access for students from diverse ethnic and socioeconomic backgrounds.

In an effort to respond to the Portrait of Sonoma County, commissioned by the Board of Supervisors in 2014, the conference will host a variety of workshops on the second day that will highlight local and regional organizations and agencies that are already engaged in the work of equity in our communities and schools.

Download the event agenda [here](#).
